Title: Conical Shell Grasping And Retaining Apparatus ...

Date of Deposit: 02/17/2004
Docket No.: NOR 1162-031

Abstract

The present invention relates to an apparatus and method for grasping, retaining, inverting, coating and transporting a plurality of frangible conical confection shells. The present invention also relates to a modular and reconfigurable manufacturing system for producing frozen cone confections and the like.
